

Uni-Weld[™] 1832VT

UV/Visible/LED Curable Multi-Substrate Precision General Bonder

PRODUCT DESCRIPTION

Incure Uni-Weld[™] 1832VT UV/Visible/LED curable adhesive is a superior multi-substrate, medium-high viscosity bonder (for bonding of gap size of up to 0.7mm). Cures in seconds, it provides extremely high bonding strength of up to 7,100 PSI on dissimilar substrates such as metals, glass, ceramics and plastic materials on a single application. Very low in linear shrinkage and provides vibration isolation capability, Incure 1832VT exhibits enhanced excellent moisture and temperature resistance and is extremely tough material with high elongation. Ideal for bonding of products requiring thermal cycling.

SHELF-LIFE, STORAGE, USE AND HANDLING OF THIS PRODUCT

Shelf-Life of this unopened product is a minimum of ONE (1) year from date of manufacture. Avoid direct exposure of bottle to visible light at all times. Containers should remained covered when not in use. Product should be stored in a dark cool place of 2°C to 20°C. Transfer of product into other packages void all warranties. Users should ensure all bonding surfaces are free of grease, mold release, or any contaminants, as bonding performance will be compromised. All tests for cured bonds should be carried out at ambient temperature. For safe handling of this product, please read Material Safety Data-sheet (MSDS) prior to use. Organic solvents, such as IPA, may be used to wipe away uncured material from surfaces.

EtO and GAMMA STERILIZATION (Not Applicable for this Product)

All Incure Medical products are formulated to subject to standard sterilization methods, such as EtO and Gamma Radiation of 25 to 50 kGrays (cumulative). Enhanced moisture and thermal resistance of this product show excellent adhesion and bonding strength after one cycle of steam auto-clave test. Depending on bond design and structure of the application, users should test specific assemblies after subjecting them to the test requirements. Please consult Incure Support Team for assistance, if your devices are subjected to more than one sterilization cycles.
